

# INTRODUCTION TO IPSI-3 PUBLIC FORUM GROUP DISCUSSIONS

By Yoko Watanabe and Anil Kumar  
Co-Chairs, IPSI-3 Public Forum

# Working Groups

	Working Group 1	Working Group 2	Working Group 3
Theme	Indicators to Capture and Measure Resilience in SEPLS	Creating Synergy between Traditional Knowledge and Modern Science	Multi-stakeholder Collaboration towards Sustainable Production and Consumption
Facilitator	Dr. Pablo Eyzaguirre	Dr. William Olupot	Dr. Yoji Natori

# Working Group Exercises

- 1) Set the scene: Presentation by the Facilitator
- 2) Morning Discussion:  
Identify linkage with the Aichi Target(s):
  - ❑ **“What”** are the 3-4 key activities (research, on-the-ground, and/or policy related activities) to be further undertaken?
  - ❑ **“Which”** Aichi Target(s) would these activities contribute to?
  - ❑ **“How”** can they contribute to the achievement of the concerned Aichi Target(s)?

# Working Group Exercise

## 3) Afternoon Exercise:

Identify opportunities to realize Collective and Individual Activities

- **“How”** can IPSI member contribute, individually and/or collectively, towards the activities identified in the morning?
- **“What”** is required (e.g. knowledge, technology, resources, etc) at the local, regional and global levels to enable the activities to happen?

# Working Group Output

Report that identifies:

- ▣ Key Activities
- ▣ Concrete Steps and Opportunities to realize the Activities
- ▣ Linkage and Contribution towards specific Aichi Target(s)
