

Production Landscapes and Protected Areas: Approaches of the Satoyama Initiative

Organized by

The International Partnership for the Satoyama Initiative (IPSI),
United Nations University Institute for the Advanced Study of Sustainability (UNU-IAS)

17 Oct
17:30-19:00
Stream 6
Hub Room6

Session Outline

Light meal will be provided

Experts and stakeholders within the International Partnership for the Satoyama Initiative (IPSI) will give presentations and engage in dialogue on challenges and opportunities in the sustainable management of socio-ecological production landscapes and seascapes (SEPLS), both within and around parks and protected areas.

The event's focus will be on the benefits that production landscapes and seascapes inside and around parks can have for management of the parks and their resources, and ways of maximizing these benefits. Examples may include the use of sustainably-managed SEPLS as buffer zones or corridors for limited-use areas inside parks, among others.

IPSI will take advantage of its diverse worldwide membership and networks to provide panelists representing a variety of viewpoints to present a broad picture of landscape and seascape approaches to management.

Production Landscapes and Protected Areas: Approaches of the Satoyama Initiative

Programme

Opening and Introduction

17:30-

Keynote speech

17:35- **Prof. Kazuhiko Takeuchi** (Senior Vice-Rector, United Nations University) “The Satoyama Initiative and protected areas: creating mutual benefits with production landscapes and seascapes”

Q&A

17:50-

Panel Session

17:55- **Mr. Jairo Díaz** (Executive Director, Foundation for Research and Social Development (FIDES), Ecuador)
“The Case of community engagement for mangrove ecosystem restoration and income generation”

18:05- **Ms. Nadia Bergamini** (Scientific Assistant, Bioversity International)
“A tool for communities to measure resilience in their production landscapes and seascapes”

18:15- **Ms. Diana Salvemini** (COMDEKS Project Manager, UNDP)
“Knowledge, Learning and Adaptive Management: the COMDEKS Community-Based Landscape Approach”

18:25- Panel Discussion
