Environmental Strategies

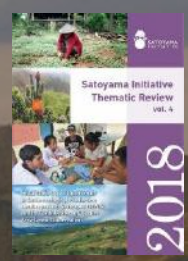

Ministry of the Environment
Government of Japan

This side event will focus on **consolidation of best practices and lessons learned** from almost a decade of landscape approaches under the International Partnership for the Satoyama Initiative (IPSI), and **the potential to replicate, upscale, and extend these up to and into the post-2020 CBD agenda.**

Three unique funding mechanisms for landscape and seascape approaches have been implemented over the past decade – the Satoyama Development Mechanism (SDM); the Community Development and Knowledge Management for the Satoyama Initiative programme (COMDEKS); and the “GEF-Satoyama Project” – and each has been undertaking the process of consolidating achievements and compiling lessons for the future.

Experts from each of these projects and others will present their findings and analysis, including discussion of the relationship between different landscape approaches such as “other effective area-based conservation measures”, as mentioned in Aichi Target 11.

Including the launch of new publications & reports

Satoyama Initiative Thematic Review Vol.4

SDM Progress Evaluation Report

GEF-Satoyama Issue Brief

Programme

18:15-	<p>Opening remarks</p> <p><i>Dr. Keiichi Nakazawa</i> Ministry of the Environment, Japan</p>
18:20-	<p>Introductory presentation on the Satoyama Initiative</p> <p><i>Prof. Alfred Oteng-Yeboah</i> Ghana National Biodiversity Committee, Chair of the IPSI Steering Committee</p> <p style="text-align: right;"><i>Dr. Evonne Yiu</i> UNU-IAS</p>
18:35-	<p>Project 1: Satoyama Development Mechanism</p> <p><i>Mr. Yasuo Takahashi</i> Institute for the Global Environmental Strategies</p>
18:50-	<p>Project 2: COMDEKS</p> <p><i>Ms. Yoko Watanabe</i> United Nations Development Programme</p>
19:05-	<p>Project 3: GEF-Satoyama Project</p> <p><i>Dr. Devon Dublin</i> Conservation International Japan</p>
19:20-	<p>Discussion and Q&A</p>
