

# IPSI Strategic Objective 4: Ecosystem Restoration

## *Stocktake and Gap Analysis to Strengthen Restoration Effectiveness*

**Isao Endo**  
Environment Group  
Climate Change and Sustainable  
Development Department  
Asian Development Bank

# Objective of the collaboration

- To promote **collaborative research and peer-to-peer learning** for effective on-the-ground restoration activities through systematic stocktake and gap analysis

# Core activities

1. **Map IPSI members' restoration activities** to capture practical lessons and on-the-ground realities
  2. **Conduct targeted literature review** on ecosystem degradation, protection, and restoration
  3. **Identify most vulnerable ecosystems** to clarify gaps and priority actions
- **Recommend priority actions** to better protect and restore most vulnerable ecosystems

# Expected outputs

- **A technical report with key findings and recommendations** for internal strategic alignment and engagement with IPSI members and partners around shared restoration agenda

# Preliminary workplan

Activity	Timeline
Finalize scope and methods, followed by systematic review and survey	Q1 2026
Conduct consultations and literature review	Q1/2 2026
Analyze ecosystem vulnerability and gaps	Q2/3 2026
Prepare draft report	Q3 2026
Complete final report	Q1/2 2027

# Participation as enabling factor

- **Active participation** is critical to ensure recommendations are evidence-based and practical

# Thank you!
